#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 1-9 and 11-29 are again rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for reduction in toxicities and side effects, does not reasonably provide enablement for preventing the recited side effects of radiation. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. Applicant's argument regarding "prevention" as meaning that the agent is administered prior to the event and that it is not synonymous with cure is not persuasive, since its accepted usage is "to keep from happening" and "treating" means providing a cure or relief of an existing condition. (Webster's New International Dictionary). Furthermore, all data in the specification is directed to CDDP. There is no data demonstrating the effectiveness of the recited compounds for the instant method.

In view of Applicant's amendment to claim 1, the earlier rejection under 35 USC 112, paragraph one to written description is overcome.

### ***Double Patenting Rejections Withdrawn***

In view of Applicant's arguments the earlier rejections under the judicially created doctrine of obviousness-type double patenting are withdrawn.

### **Prior Art of Record**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. While some of the references cited by Applicant disclose a radioprotective effect of sulfur-containing compounds on cells, they are either to

Art Unit: 1614

compounds that fall outside of the recited compounds or do not render the instant method obvious without additional information.

### ***Information Disclosure Statement***

References 19, 23, 33, 53 and 62 were considered to the extent of their English language summary. References 16 and 78-98 were not considered because they are not publications. The following references were not received and therefore could not be considered: 8, 22, 34-37, 64 and 66.

### **Action Is Final**

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
